ENGINEERING LEAD

Gabriel *Taveira*.

I'm an Engineering Lead with over 9 years of professional experience. I've led teams from 4 to **56 direct reports**, working remotely with major US companies. I help them build great teams and systems that last.

Currently consulting independently. My engineering journey started when I was eight, reverse-engineering games. 18 years of building and breaking systems later, the itch hasn't changed shape.

9+ Years in industry · SINCE 2017

56 Most direct reports · ACROSS 6 TEAMS

18 Years tinkering · STARTED AT AGE 9

5 Hackathons won · 2019 – 2020

PROFESSIONAL EXPERIENCE · 2017 – NOW

Teams I've led. Systems that *lasted*.

From four direct reports to fifty-six, across startups, delivery apps, fintechs, and tech giants.
Same playbook every time: hire kindly, ship boring tech, write everything down.

INDEPENDENT · 2025 – NOW

Independent consulting

Mobile architecture, engineering leadership, and team craft. Engagement details under NDA. Reach out if you're hiring or just curious.

What I'm actually *doing*.

● CONSULTING
Mobile architecture and engineering leadership
Independent consulting. Engagement details under NDA. Same work, less commute.

● HOSTING
Space Cast on Rocketseat
Long-form chats on engineering, leadership, and the strange shapes of a tech career. Bring a guest idea over ↗.

● MENTORING
Space Squad · the next generation
Ambassador since the program started. The compounding interest on a 20-minute coffee with a junior engineer is wild.

▼ TINKERING
A native screen-recording detector for Expo
Upstreaming work from a past engagement. Reverse-engineering for fun, then for prod. Both still scratch the same age-8 itch.
